## IRAN'S UPSTREAM OIL & GAS SECTOR

Unlocking Investment and Financing Opportunities in NIOC Projects

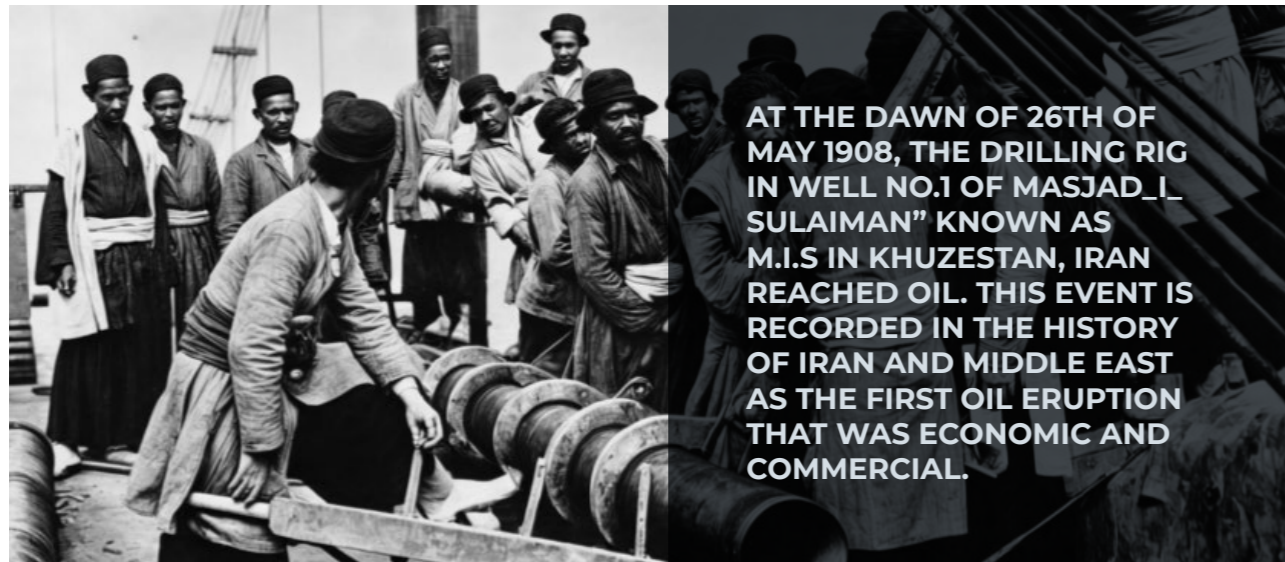

**APRIL 15, 2025 | IRAN INT'L CONFERENCE CENTER  
TEHRAN - IRAN**

[www.investment.nioc.ir](http://www.investment.nioc.ir)

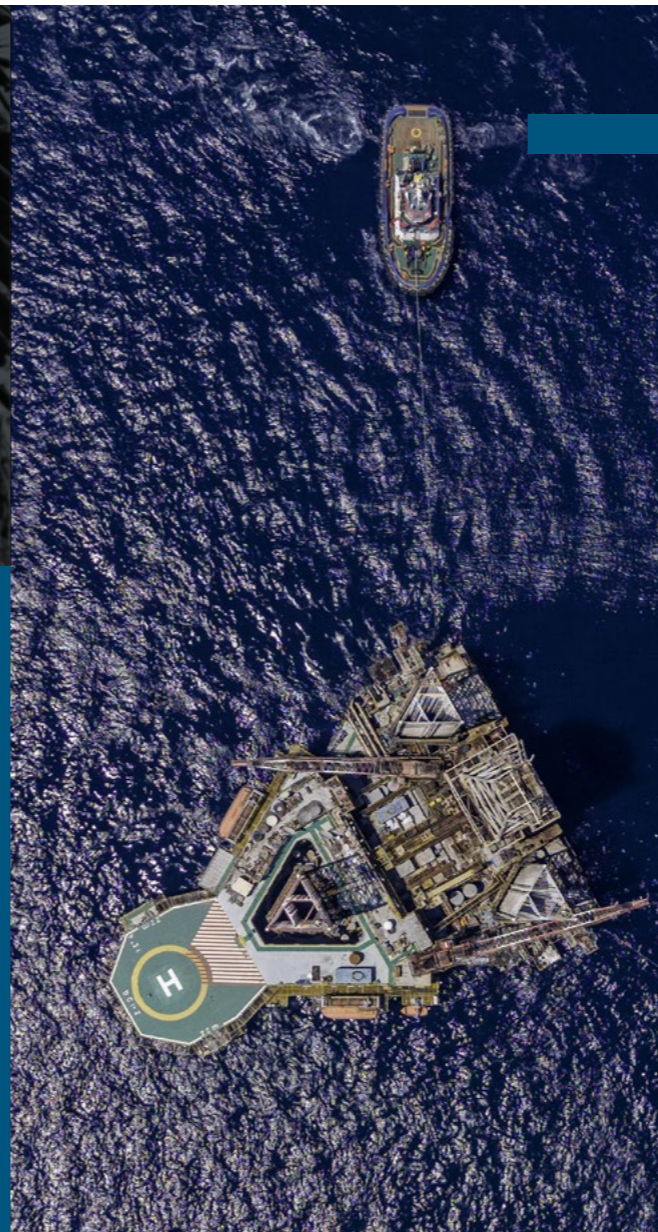

AT THE DAWN OF 26TH OF MAY 1908, THE DRILLING RIG IN WELL NO.1 OF MASJAD\_I\_SULAIMAN" KNOWN AS M.I.S IN KHUZESTAN, IRAN REACHED OIL. THIS EVENT IS RECORDED IN THE HISTORY OF IRAN AND MIDDLE EAST AS THE FIRST OIL ERUPTION THAT WAS ECONOMIC AND COMMERCIAL.

## SINCE ITS INCEPTION IN 1951,

The National Iranian Oil Company as one of the largest oil companies in the world and a founding member of "Organization of Petroleum Exporting Countries" known as "OPEC", had always played a crucial and constructive role in production and export of oil and gas to provide sustainable and reliable energy for welfare and prosperity of all people around the world.

During these 117 years of oil and gas exploration and production, Iranian has never let the vital flow of hydrocarbon to be cut-off under any social, political, economic and international circumstances. Despite of climate change impacts and energy transition ambitions, the necessity of investment in oil and gas industry to ensure global economic growth is inevitable.

NIOC -as one of the largest national and commercial oil companies- in line with "General Policies of Article 44 of the Constitution of Islamic Republic of Iran" which emphasizes facilitation of participation of private sector in public projects, plans to initiate a "Strategic Transformation in Iran's Upstream Oil and Gas Sector" to facilitate participation of all -Iranian and Foreigners- with support of all its capabilities and resources.

Being ranked 1st oil company in hydrocarbon reserves, NIOC with rich oil and gas resources which is estimated to be 158 billion barrels of recoverable oil and 33 trillion cubic meter of recoverable gas, intends to offer more than 135 billion USD new attractive investment opportunities in about 200 projects and plans to all those interested in investing in upstream sector.

These opportunities are designed and defined in an attractive and satisfying framework – such as IPC and PPP- that all types of investors and developers -from major international oil companies to SMEs- can participate in them. The main investment categories –onshore and/or offshore- are listed as follows:

- Developed and Undeveloped Oil and Gas Fields
- Logistic and Civil Construction Projects
- Power Generation and Transmission
- Skid Mounted Oil Processing Units
- Pipelines and Storage Tanks
- Gas Compression Stations
- Flare Gas Recovery
- Water Treatment Units
- Smart Pigging
- Fuel Conservation Projects
- LNG
- NGL

**IN THIS REGARD, NIOC IS GOING TO HOLD "THE EVENT OF STRATEGIC TRANSFORMATION IN IRAN'S UPSTREAM OIL & GAS SECTOR" ON APRIL 15TH, 2025 AT "IRAN INTERNATIONAL CONFERENCE CENTER", TEHRAN, IRAN.**

For registration and participation in this event, visit NIOC's Investment and Business Development website at

**[WWW.INVESTMENT.NIOC.IR](http://WWW.INVESTMENT.NIOC.IR)**

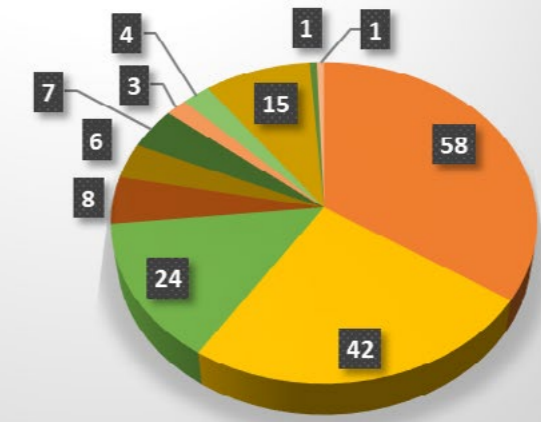

**EVENT HEADLINES ARE AS FOLLOWS:**

1. Unveiling of investment and financing opportunities in NIOC's plans and projects such as Oil and Gas Fields Exploration and Development, Flare Gas Recovery, Skid-Mounted Processing Units, Gas Compression Stations, Water Treatment, Pipelines and Storage Tanks, Smart Pipeline Inspection Gauging (Smart Pigging), Power Generation and Transmission, Fuel Conservation.
2. Provision of new incentives for investing in NIOC's plans and projects.
3. Demonstration of aspects of Iranian Petroleum Contracts (IPC) for development of Oil and Gas fields.
4. Demonstration of aspects of Public-Private Participation (PPP) Contracts.
5. Meeting with E&P companies in presence of CEO of NIOC
6. Introduction of new Iranian Oil and Gas Upstream Projects Financing Guidelines
7. Introduction of "PetroCrowd" as a new financing tool for crowdfunding oil and gas industry projects

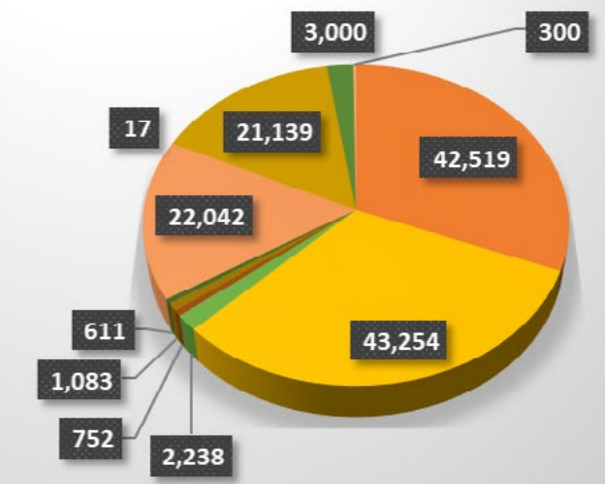

**No. of Investment Opportunities**

- Oil Field Development
- Gas Field Development
- Logistic and Civil Construction Projects
- Power Generation and Transmission
- Skid Mounted Oil Processing Units
- Pipelines and Storage Tanks
- Gas Compression Stations
- Flare Gas Recovery
- Water Treatment Units
- Smart Pigging

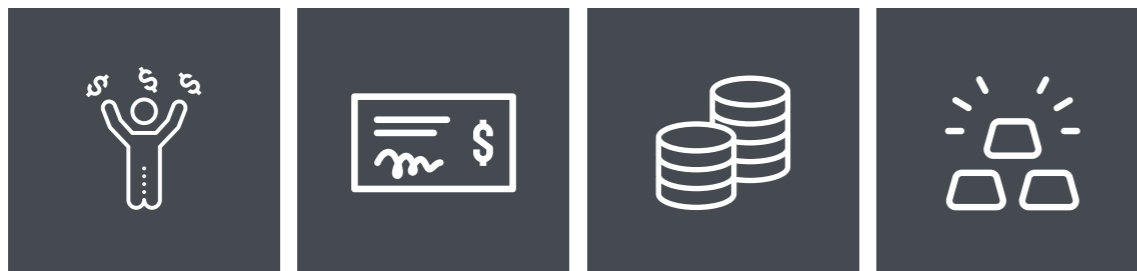

**Investment Opportunities Capex (m\$)**

- Oil Field Development
- Gas Field Development
- Logistic and Civil Construction Projects
- Power Generation and Transmission
- Skid Mounted Oil Processing Units
- Pipelines and Storage Tanks
- Gas Compression Stations
- Flare Gas Recovery
- Water Treatment Units
- Smart Pigging

Expert Panels on "Strategic Transformation in Iran's Upstream Oil & Gas Sector"			
Expert Meeting of E&P Companies with Attendance of NIOC's CEO	Introduction of Public-Private Partnership Contracts Regime and Relevant Executive Regulations	Introduction of Investment Opportunities in Support Plans	
Introduction of Contract Regime of "Iran Petroleum Contract (IPC)"	Introduction of Investment Opportunities in Oilfields	Introduction of Investment Opportunities in Gas Fields	
Introduction of Investment Opportunities in Fuel Conservation Projects	Introduction of Investment Opportunities in LNG, NGL and Flare Gas Recovery Projects	Introduction of Investment Opportunities In Power Generation and Transmission, Water Treatment, Pipelines and Storage Tanks Construction	Introduction of Investment Opportunities in Gas Compression Stations and Skid-Mounted Processing Units

For registration and participating in the event of "Strategic Transformation in Iran's Upstream Oil & Gas Sector" on April 15th, 2025 at "Iran Int'l Conference Center", Tehran, Iran, complete and send the following required information to [investment@nioc.ir](mailto:investment@nioc.ir)
